Become an ESJ Supporter

Each donation provides a discount or free publication to a scholar from a low-income country¹!

By operating with a low-level amount of Article Processing Charges (APC), ESJ grants publishing opportunities to academics from all around the globe, especially to those coming from developing countries. However, this model is very challenging for covering the operating costs of the journal.

The long run aim of the journal is to replace the APC model with sponsorship and become free of charge for the authors of the papers.

Supporting ESJ financially will ensure continuous activity towards our mission to provide the academic community a decent open access-publishing venue.

All institutional and individual supporters will have their names listed on our website and social media thus visible to over 2 million visitors per year.
