### Overview of Special Edition

In recent years, the concept of sustainability has emerged as a critical topic across multiple academic disciplines. Accordingly, research addressing this topic has approached the concept of sustainability from multiple perspectives, and has done so by using diverse theoretical and conceptual methodologies. In the 21<sup>st</sup> century, sustainability generally refers to the capacity of the Earth's biosphere and human civilization to co-exist, although it is important to recognize that human foci on maintaining an enduring socio-environmental existence is not new. Moreover, recent conceptions of sustainability, focused on efforts to guarantee the ability of all people to meet their future social, cultural, economic, and environmental needs, also incorporate ideas concerning international law and human rights. This Special Edition of the European Science Journal (ESJ) is devoted to exploring the various dimensions of sustainability, both past and present, and focuses on the diverse relationships it has with social and environmental concerns.

### Papers in the following academic disciplines are welcomed:

Environmental and Geosciences  
Ecology and Biosciences  
History and Economics  
Social Sciences  
Sustainable Development  
Demography and Urban Studies  
Agriculture  
Urban, Regional and Global Policy  
International Law  
Political Science  
Human Rights  
Medicine

### Submissions:

Submit your paper as a Microsoft Word document to [contact@eujournal.org](mailto:contact@eujournal.org) or [hierd@mst.edu](mailto:hierd@mst.edu)

### Timeframe:

Submission Deadline	June 1, 2022
First decision Peer Review	July 1, 2022
Revisions Due	August 15, 2022
Final Decision Due	September 1, 2022
Publication Date	October 1, 2022

**Language:** English

**Peer Review Procedure:** Single blind.

**Publication Fee:** The publication fee is 97 EUR per accepted paper.

**Types of Manuscripts Accepted for review:**

Original research

Literature reviews

Hypotheses

Reviews of conceptual framework

Simulations and algorithms

Summarizations of prior work

Work in progress and Preliminary Results
