Email: [hbuenrostroa@comunidad.unam.mx](mailto:hbuenrostroa@comunidad.unam.mx)

**Professor Laura Fischer, PhD**

Email: [lfischer@fca.unam.mx](mailto:lfischer@fca.unam.mx)

Faculty of Accounting and Administration,  
National Autonomous University of Mexico

#### **Overview of Special Edition**

Nowadays, sustainability has become a central theme around which various issues affecting organizations revolve; hence it is essential to study the way in which sustainability is understood and internalized in policies, plans, strategies and organizational objectives. Therefore, the aim of this issue is to analyze the way in which organizations join the change implied by sustainability and the challenges this poses, in order to move towards an improvement, quantitatively and qualitatively, of society in general.

#### **Papers in the following academic disciplines are welcomed:**

International Business

Management Informatics  
Management  
Accounting  
International law  
Marketing  
International Relations  
Finance  
Engineering  
Economics

#### **Submissions:**

Submit your paper as a Microsoft Word document to  
[lfarah@live.com.mx](mailto:lfarah@live.com.mx) ,  
[hbuenrostroa@comunidad.unam.mx](mailto:hbuenrostroa@comunidad.unam.mx)  
or [lfischer@fca.unam.mx](mailto:lfischer@fca.unam.mx)

**Acceptable manuscript types:** research articles or  
literature reviews.

#### **Timeframe:**

Submission Deadline	July 26, 2024
First decision Peer Review	August 20, 2024

The European Scientific Journal (ESJ) is a publication of the European Scientific Institute (ESI) and is a global academic platform that cooperates with Universities, and centers on five continents, by publishing scientific journals, organizing scientific conferences, forums, postdoctoral programs, and joint projects.

The European Scientific Journal (ESJ) fosters a global exchange of knowledge, publishing impactful research from over 40,000 authors across 178 countries. We champion accessibility for researchers, particularly those in developing nations, through rigorous yet agile peer review and low publication fees. Committed to transparency, we utilize open peer review, allowing authors and reviewers to reveal their identities (upon approval) alongside the review history for each published paper. This unique approach ensures the highest level of transparency and fosters trust in the research we disseminate. Additionally, ESJ is indexed in a range of databases, including ANVUR, CrossRef, Semantic Scholar and Sherpa Romeo maximizing the reach and impact of your valuable research.
