ESJ Manuscript Evaluation Form 2021

This form is designed to summarize the manuscript peer review that you have completed and to ensure that you have considered all appropriate criteria in your review. Your review should provide a clear statement, to the authors and editors, of the modifications necessary before the paper can be published or the specific reasons for rejection.

Please respond within the appointed time so that we can give the authors timely responses and feedback.

NOTE: ESJ promotes peer review procedure based on scientific validity and technical quality of the paper (not perceived the impact). You are also not required to do proofreading of the paper. It could be recommended as part of the revision.

ESJ editorial office would like to express its special gratitude for your time and efforts. Our editorial team is a substantial reason that stands ESJ out from the crowd!

<i>(Please insert your comments)</i>	
Bibliographic references should be updated with more recent data (less than 5 years)	

Overall Recommendation (mark an X with your recommendation) :

Accepted, no revision needed	
Accepted, minor revision needed	X
Return for major revision and resubmission	
Reject	

Comments and Suggestions to the Author(s):

Cette étude est très importante pour celui qui veut entreprendre la culture de la banana plantain en culture de contre saison. Au niveau de la méthodologie adoptée, vous devez faire ressortir les prix unitaires de tous les intrants de sorte que la présentation des résultats soit plus aisée. Le constat est que vous êtes obliges à chaque de rappeler les unitaires dans vos résultats. La discussion dans son ensemble n'est pas bien fournie.

Vous vous plus étalés sur la presentation de vos résultats dans la discussion. Essayer de lire des articles sur les études socio-économiques et répondez votre discussion. Quant aux références bibliographiques, ils ne sont pas trop fournies et ne sont pas aussi récentes. Veuillez faire recours à des références de moins 5 ans de préférences.

4. The study methods are explained clearly.	5
<i>The study methods are clearly explained</i>	
5. The results are clear and do not contain errors.	3
<i>Some results are clear but others contain errors and are confusing in this article</i>	
6. The conclusions or summary are accurate and supported by the content.	3
<i>The conclusion and the summary do not exactly reflect the content of this article (See my comments in side)</i>	
7. The references are comprehensive and appropriate.	5
<i>The references are comprehensive and appropriate</i>	

Comments and Suggestions to the Author(s): Review the structure of the summary and pay attention to the numbers. Make simple and understandable sentences. Review the formulation of the problematic. Clearly define the objective of the work, specify the research questions and finally make sure that the results of each experiment answer the specific questions. Review the calculations, or better yet, do them on Excel to avoid errors. Review the discussion. Take into account the different comments in the margin.
