using references in the concluding section is inappropriate.

**The CONCLUSION or summary is accurate and supported by the content.**

\*

(Please insert your comments)

The learned Author should avoid using references in the concluding section as mentioned on page 04. This is repeated in the abstract and conclusions also.

He should confirm again the figure of the UNDP report on page 03 as referred 89%and 90%.

The Paper is Publishable and reflects the reality regarding the term "Sustainable development".

**The list of REFERENCES is comprehensive and appropriate.**

\*

Each in-text citation has to be included in the list of references and vice versa.

(Please insert your comments)

The references are mostly the latest and appropriate.

**Comments and Suggestions to the Author(s):**

The author should avoid putting references in the concluding section because it should be solely the own writ up of the authors. He/She may develop the methods section separately in the study.
