The TITLE is clear and it is adequate to the content of the article.

*

(Please insert your comments)

yes the title is quite clear and covered the contents of the article as well but some areas of the world are found missing in the article such as Pakistan except in the portion of "Claiming Responsibility" whereas is rest of the paper is silent. See US institute of peace

<https://www.usip.org/sites/default/files/PB213-The-Islamic-State-In-Pakistan.pdf>

The ABSTRACT clearly presents objects, methods, and results.

*

(Please insert your comments)

It appears the authors have done comprehensive work to meet the central idea of the paper by focusing on key points, however the abstract lacks results being achieved and effected to the world.

There are a few grammatical errors and spelling mistakes in this article.

(Please insert your comments)

No there are no grammatical or spelling mistakes found in the article except one word i.e most deadly instead of deadliest.

The study METHODS are explained clearly.

*

(Please insert your comments)

Though the authors have adopted mixed method i.e qualitative and quantitative with literature review, but the learned authors have not explained in Abstract and Introduction regarding research methodology being adopted.

The body of the paper is clear and does not contain errors.

*

(Please insert your comments)

The body of the paper is clear which does not contain any errors.

The CONCLUSION or summary is accurate and supported by the content.

*

(Please insert your comments)

Though the comprehensive research paper has written by the authors, yet some aspects needs to be cover, such as exitance of the ISIS or its sympathizers in Pakistan and why and how other terrorist organizations mimicked ISIS Model and what goals they or ISIS has achieved. The paper ought to explain the modus operandi of attracting large number of militants from more than 110 countries. However the overall content of the paper has coherence and accuracy to the central idea of the paper.

The list of REFERENCES is comprehensive and appropriate.

*

Each in-text citation has to be included in the list of references and vice versa.

(Please insert your comments)

Indeed the list of references is appropriate and comprehensive per contents of the research paper.

Comments and Suggestions to the Author(s):

The authors have highlighted various kinds of methodologies of the attack by the ISIS or its inspirational organizations, however the author has to cover the ideology of the ISIS in little bit details and how it attracts the large number of people across the glob. The authors have spotlighted the ideology of Wahhabism and Salafism, but they should have explain how such ideology has been expanded coupled with nearest organization working with it.
