II. EVALUATION OF TREATMENT

Please give detailed answers to the following questions.

1. What are the strengths and weaknesses of the paper?

- The topic addressed in this paper is a new topic, not much explored in Albanian literature.
- The most recent studies in the field are cited.
- The references cited in the text and at the end of the paper should be reviewed.

2. Is sufficient information in the introduction of the paper? If not, please provide suggestions on what information the author can add to improve the content of the paper.

Yes, the information is sufficient.

3. Are the research questions clear?

The paper does not contain research questions because is a literature overview.

4. Is the research methodology appropriate? If not, please provide suggestions on what information can the author add to improve the content of the paper.

The paper does not contain the search methodology paragraph.

5. Do the Conclusions paragraph provide enough information? If not, please provide suggestions on what information can the author add to improve the content of the paper.

The conclusions paragraph has enough information.

6. Please give your opinion on the structure, organization, etc., of the paper. Please be specific.

7. Please give your opinion if the references used in this paper are sufficient, adequate and up-to-date. If not, please suggest references that you think are necessary to be included by the author.

The author needs to make a reconciliation between references cited throughout the text and at the end of the paper.

III. I recommend this paper

a. To be published in the current form
