**Comments and Suggestions to the Author(s):** Dire un mot sur les branches de l'anthropologie, quitte à préciser qu'elles utilisent fondamentalement en commun l'approche qualitative en complément de l'approche quantitative par moment. Il ne faut pas trop généraliser en parlant de l'Afrique alors que votre terrain concerne la Côte d'Ivoire, surtout que nulle part nous n'avons pas vraiment les résultats et terrains d'étude des autres travaux dont vous parlez. Vos critiques de la démarche de l'épidémiologie ne sont pas fondées sur des données concrètes or il le faut.

**Comments and Suggestions to the Editors Only:**

**La prise en compte des observations et suggestions faites devrait permettre la publication de l'article qui est innovant.**
