### Comments and Suggestions to the Author(s):

*Au niveau de l'introduction la problématique n'apparaît pas clairement et l'objectif est énoncé plus haut. Il faut que les auteurs utilisent une méthode statistique appropriée pour traiter les données en présentant un tableau qui resument les paramètres statistiques élémentaires (Max, Min, Moyenne, Ecart-type, Etc...). De même, il faut qu'il éviter certaines comparaisons qui ne sont pas forcement vrai lorsqu'on passe d'un milieu lagunaire à un autre.*

## **Comments and Suggestions to the Editors Only:**

*I'm very glad to be a reviewer in your journal. I hope, it will not be the end.*

*Best regards*
