<i>Questions</i>	<i>Rating Result</i> [Poor] 1-5 [Excellent]
<b>1. The title is clear and it is adequate to the content of the article.</b>  <i>Le titre retenu ne rend pas compte de la réalité des faits sur le terrain. Vraisemblablement, le problème à traiter est celui de la migration (exode rural), de la sédentarisation et de l'intégration des Bororos à l'économie urbaine : cas de Bafoussam et Dschang.</i>	<b>2</b>
<b>2. The abstract clearly presents objects, methods and results.</b>  <i>Résumé mal rédigé.</i>	<b>2</b>

<b>3. There are few grammatical errors and spelling mistakes in this article.</b>	<b>3</b>
<i>Le texte est mal écrit. Il manque de rigueur scientifique. Les fautes corrigées apparaissent en rouge dans le texte. L'utilisation boiteuse des concepts de niveau licence témoigne de profondes lacunes inacceptables au niveau doctoral.</i>	
<b>4. The study methods are explained clearly.</b>	<b>2</b>
<i>L'auteur principal ne maîtrise aucune des méthodes évoquées dans le texte. Les explications sur les méthodes qualitative et quantitative manquent de clarté.</i>	
<b>5. The body of the paper is clear and does not contain errors.</b>	<b>1</b>
<i>Texte confus. Les concepts méthode, méthodologie ne sont pas clairs. Les auteurs parlent d'immigrants là où il faut parler de migrants. Cette confusion soulève des doutes dans l'esprit de tout géographe bien formé et qui comprend ce qu'est l'exode rural. Cf notes marginales.</i>	
<b>6. The conclusions or summary are accurate and supported by the content.</b>	<b>1</b>
<i>Conclusion mal écrite.</i>	
<b>7. The references are comprehensive and appropriate.</b>	<b>3</b>

Quand deux professeurs acceptent que leurs noms apparaissent sur un article, ils doivent s'assurer de son contenu et de sa qualité scientifique. Accompagnent-ils véritablement cette étudiante ?
