# ***ESJ Manuscript Evaluation Form 2020***

This form is designed to summarize the manuscript peer review that you have completed and to ensure that you have considered all appropriate criteria in your review. Your review should provide a clear statement, to the authors and editors, of the modifications necessary before the paper can be published or the specific reasons for rejection.

Please respond within the appointed time so that we can give the authors timely responses and feedback.

NOTE: ESJ promotes peer review procedure based on scientific validity and technical quality of the paper (not perceived the impact). You are also not required to do proofreading of the paper. It could be recommended as part of the revision.

***ESJ editorial office would like to express its special gratitude for your time and efforts. Our editorial team is a substantial reason that stands ESJ out from the crowd!***

## *Evaluation du Manuscip*

This form is designed to summarize the manuscript peer review that you have completed and to ensure that you have considered all appropriate criteria in your review. Your review should provide a clear statement, to the authors and editors, of the modifications necessary before the paper can be published or the specific reasons for rejection.

Please respond within the appointed time so that we can give the authors timely responses and feedback.

NOTE: ESJ promotes peer review procedure based on scientific validity and technical quality of the paper (not perceived the impact). You are also not required to do proofreading of the paper. It could be recommended as part of the revision.  
***ESJ editorial office would like to express its special gratitude for your time and efforts. Our editorial team is a substantial reason that stands ESJ out from the crowd!***

### **Evaluation Criteria:**

**Please give each evaluation item a numeric rating on a 5-point scale, along with a thorough explanation for each point rating.**

| <i>Questions</i>                                                               | <i>Rating Result</i><br>[Poor] 1-5<br>[Excellent] |
|--------------------------------------------------------------------------------|---------------------------------------------------|
| <b>1. The title is clear and it is adequate to the content of the article.</b> | <b>5</b>                                          |
| Le titre est clair et adapté au contenu de l'article.                          |                                                   |
| <b>2. The abstract clearly presents objects, methods and results.</b>          | <b>5</b>                                          |

|                                                                                                                                                                                                                                |          |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|
| Le résumé présente très bien les objectifs (général et spécifique) avec une méthodologie claire et très compréhensible. Les résultats sont bien décrits.                                                                       |          |
| <b>3. There are few grammatical errors and spelling mistakes in this article.</b>                                                                                                                                              | <b>5</b> |
| Il n'y a pas d'erreurs grammaticales et d'orthographe dans cet article. Il y a lieu de vérifier l'écriture des auteurs cités dans le texte                                                                                     |          |
| <b>4. The study methods are explained clearly.</b>                                                                                                                                                                             | <b>4</b> |
| Les méthodes d'étude sont bien expliquées et bien compréhensibles                                                                                                                                                              |          |
| <b>5. The body of the paper is clear and does not contain errors.</b>                                                                                                                                                          | <b>5</b> |
| Le corps du document est clair et bien lisible. Il ne contient pas d'erreur                                                                                                                                                    |          |
| <b>6. The conclusions or summary are accurate and supported by the content.</b>                                                                                                                                                | <b>4</b> |
| Il est nécessaire de mentionner la date de démarrage de ces fermes modèles. Ce qui permettra au lecteur d'évaluer la durée d'expérimentation des fermes modèles et la pertinence de l'étude, des résultats et des conclusions. |          |
| <b>7. The references are comprehensive and appropriate.</b>                                                                                                                                                                    | <b>3</b> |
| Vallset <i>al.</i> , 2011, Ruschawet <i>al.</i> , 2014, Vincent, 2016), Fabre (1994), Nyemeck et al. (2003, FAO (2001), Ces auteurs n'apparaissent pas dans les références.                                                    |          |

|---------------------------------|------------|

**Comments and Suggestions to the Author(s):**

- a) Il y a lieu de vérifier l'orthographe des auteurs : Ruschawet *al.*, 2014 dans le document.
- b) Vallset *al.*, 2011, Ruschawet *al.*, 2014, Vincent, 2016), Fabre (1994), Nyemeck et al. (2003, FAO (2001), Ces auteurs n'apparaissent dans les références. Il y a lieu de corriger la bibliographie.
- c) Il est important et nécessaire de mentionner la date de démarrage de ces fermes modèles. Ce qui nous permettra d'évaluer la durée d'expérimentation des fermes modèles et la pertinence de l'étude, des résultats et des conclusions.
- d) Il est important de localiser la position de la zone d'étude dans une carte qui situe le lecteur au niveau de la RDC (Congo) et en Afrique.
