## ***ESJ Manuscript Evaluation Form 2020***

This form is designed to summarize the manuscript peer review that you have completed and to ensure that you have considered all appropriate criteria in your review. Your review should provide a clear statement, to the authors and editors, of the modifications necessary before the paper can be published or the specific reasons for rejection.

Please respond within the appointed time so that we can give the authors timely responses and feedback.

NOTE: ESJ promotes peer review procedure based on scientific validity and technical quality of the paper (not perceived the impact). You are also not required to do proofreading of the paper. It could be recommended as part of the revision.

***ESJ editorial office would like to express its special gratitude for your time and efforts. Our editorial team is a substantial reason that stands ESJ out from the crowd!***

**Comments and Suggestions to the Author(s):**

To assist the author(s) in revising his/her/their manuscript, please separate your remarks into two sections:

- (1) Suggestions, which would improve the quality of the paper but are not essential for publication.
  - ✓ Remember to put a full stop before you begin another sentence.
  - ✓ Don't mix up COVID -19 (the disease) with Coronavirus (the virus) that causes COVID-19.
  - ✓ Always write COVID -19 in capital letters.
  - ✓ When several sources are cited parenthetically, they are ordered alphabetically by first authors' surnames and separated by semicolon. Reflect this in all the citations.
  - ✓ Rework the Reference section
  - ✓ Use same line spacing throughout the citation
  - ✓ Let your reference follow any known reference style
  - ✓ You do not italicise everything in the citation
  - ✓ You do not italicise the name of the author
  - ✓ You do not italicise both the title of the paper and the journal cited at the same time
- (2) Changes which must be made before publication
