ESJ Manuscript Evaluation Form 2020

This form is designed to summarize the manuscript peer review that you have completed and to ensure that you have considered all appropriate criteria in your review. Your review should provide a clear statement, to the authors and editors, of the modifications necessary before the paper can be published or the specific reasons for rejection.

Please respond within the appointed time so that we can give the authors timely responses and feedback.

NOTE: ESJ promotes peer review procedure based on scientific validity and technical quality of the paper (not perceived the impact). You are also not required to do proofreading of the paper. It could be recommended as part of the revision.
ESJ editorial office would like to express its special gratitude for your time and efforts. Our editorial team is a substantial reason that stands ESJ out from the crowd!

Comments and Suggestions to the Author(s):

In introduction should be added what the advantages of this research are. And what are the disadvantages if this research is not conducted. Is there any prior research that was done by a researcher? So, this research can be compared and gain the novelty.

Some sentences need citation, i.e: “In 2020 the Ministry of Education (MOE) in the State of Kuwait has introduced e-learning at all levels”
