### Comments and Suggestions to the Author(s):

Je voudrais avant tout propos, féliciter les auteurs pour le manuscrit produit.

Cependant, les principales observations et suggestions se présentent comme suit :

- Relecture du manuscrit pour corriger les fautes et la redondance de certaines informations aux niveaux du résumé, de la méthodologie, des résultats et discussions ainsi que de la conclusion.
- Absence d'objectifs spécifiques du manuscrit, il faudra en proposer
- Explication du choix des exploitants enquêtés, la détermination de la taille de l'échantillon , l'approche et la période des enquêtes
- Proposition d'un point à part entière pour les données qualitatives et la proposition pourrait être enquête auprès des producteurs avec des sous points

- Justification de certains éléments comme les périodes d'acquisition des images SPOT , l'utilisation des images SPOT et du NDVI en se basant sur la revue de la littérature existante
- Valoriser les résultats des enquêtes réalisées à travers un paragraphe dans la partie résultats. Il faut un point sur les producteurs enquêtés (superficie des exploitations, les équipements, les pratiques agricoles, les caractéristiques socio-démographiques des producteurs)
- Absence d'une véritable discussion des résultats obtenus (à titre illustratif, on ne perçoit pas la comparaison des résultats à d'autres études antérieures et aussi les justifications des résultats obtenus)
- Numéroter les références comme recommandé par le guide des auteurs
