**The TITLE is clear and it is adequate to the content of the article.**

\*

*(Please insert your comments)*

Yes

**The ABSTRACT clearly presents objects, methods, and results.**

\*

*(Please insert your comments)*

Yes

**There are a few grammatical errors and spelling mistakes in this article.**

*(Please insert your comments)*

Yes, only minor mistakes that can be corrected using the free version of Grammarly

**The study METHODS are explained clearly.**

\*

*(Please insert your comments)*

Yes

**The body of the paper is clear and does not contain errors.**

\*

*(Please insert your comments)*

Yes, although I believe the authors should also discuss epidemiological data regarding HIV, HCV and HBV in Togo and why it is important to screen blood products for these viruses. In addition, please ensure that your paper adheres to the corresponding EQUATOR network guidelines: [equator-network.org](http://equator-network.org)

Also, what is the novelty of your paper? Aren't the specificities etc of these tests already known?

Was ethical approval sought for this study? Did the subjects whose blood samples you employed give their informed consent to partake in this research?

**The CONCLUSION or summary is accurate and supported by the content.**

\*

(Please insert your comments)

Yes

**The list of REFERENCES is comprehensive and appropriate.**

\*

Each in-text citation has to be included in the list of references and vice versa.

(Please insert your comments)

Please revise the references to match the style of the journal
