ESJ Manuscript Evaluation Form 2021

This form is designed to summarize the manuscript peer review that you have completed and to ensure that you have considered all appropriate criteria in your review. Your review should provide a clear statement, to the authors and editors, of the modifications necessary before the paper can be published or the specific reasons for rejection.

Please respond within the appointed time so that we can give the authors timely responses and feedback.

NOTE: ESJ promotes peer review procedure based on scientific validity and technical quality of the paper (not perceived the impact). You are also not required to do proofreading of the paper. It could be recommended as part of the revision.
ESJ editorial office would like to express its special gratitude for your time and efforts. Our editorial team is a substantial reason that stands ESJ out from the crowd!

Reviewer Name: Dr. Gherbon Adriana	
University/Country: University of Medicine and Pharmacy V. Babes Timisoara, Romania	
Date Manuscript Received: 24.02.2022	Date Review Report Submitted: 05.03. 2022
Manuscript Title: The Impact of Dental Hypersensitivity Over the Patients Life Quality Study Based on a Questionnaire	
ESJ Manuscript Number: 0310/2022	
You agree your name is revealed to the author of the paper: Yes/No Yes	
You approve, your name as a reviewer of this paper, is available in the “review history” of the paper: Yes/No Yes	
You approve, this review report is available in the “review history” of the paper: Yes/No Yes	

Evaluation Criteria:

Evaluation Criteria:

Please give each evaluation item a numeric rating on a 5-point scale, along with a thorough explanation for each point rating.

<i>Questions</i>	<i>Rating Result</i> [Poor] 1-5 [Excellent]
1. The title is clear and it is adequate to the content of the article.	5
<i>I suggest rephrasing the title to "The impact of dental hypersensitivity on the patients' quality of life. A questionnaire-based study"</i>	
2. The abstract clearly presents objects, methods and results.	5
<i>Well structured and clearly summarizing how the research was carried out.</i>	
3. There are few grammatical errors and spelling mistakes in this article.	4
<i>In the penultimate paragraph of the Introduction replace "dentures" with "teeth" In the last paragraph of the Introduction replace "toothmoos" with "toothmousse" In the last paragraph of the Introduction instead of "appearance", "incidence" would be more appropriate In the first paragraph of the Discussion replace "female sex" with "female gender" In the first paragraph of the Conclusions correct "adres" with "address"</i>	

<i>The last sentence of the first paragraph of the Conclusion is not clear. A word seems to be missing after “enamel”</i>	
4. The study methods are explained clearly.	5
<i>Methods are described in sufficient detail.</i>	
5. The results are clear and do not contain errors.	5
<i>All relevant findings are included</i>	
6. The conclusions or summary are accurate and supported by the content.	5
<i>It is described how the results fit into the dental clinical science</i>	
7. The references are comprehensive and appropriate.	5
<i>(Please insert your comments)</i>
