ESJ Manuscript Evaluation Form 2021

This form is designed to summarize the manuscript peer review that you have completed and to ensure that you have considered all appropriate criteria in your review. Your review should provide a clear statement, to the authors and editors, of the modifications necessary before the paper can be published or the specific reasons for rejection.

Please respond within the appointed time so that we can give the authors timely responses and feedback.

NOTE: ESJ promotes peer review procedure based on scientific validity and technical quality of the paper (not perceived the impact). You are also not required to do proofreading of the paper. It could be recommended as part of the revision.

ESJ editorial office would like to express its special gratitude for your time and efforts. Our editorial team is a substantial reason that stands ESJ out from the crowd!

Date Manuscript Received: 30th June, 2020	Date Review Report Submitted:
Manuscript Title: EXISTING PRACTICES OF PARENT-CHILD COMMUNICATION ON SEX-RELATED MATTERS AMONG HOUSEHOLDS IN ONDO STATE; IMPLICATIONS FOR EMERGING INTERVENTIONS	
ESJ Manuscript Number:	
You agree your name is revealed to the author of the paper: Yes/ <u>No</u> NO	
You approve, your name as a reviewer of this paper, is available in the “review history” of the paper: Yes/No	
You approve, this review report is available in the “review history” of the paper: Yes/No	

Evaluation Criteria:

Please give each evaluation item a numeric rating on a 5-point scale, along with a thorough explanation for each point rating.

<i>Questions</i>	<i>Rating Result</i> [Poor] 1-5 [Excellent]
1. The title is clear and it is adequate to the content of the article.	3
<i>(Please insert your comments) The last part of the topic ‘Implications for emerging interventions could be made clearer’ or modified to make it simpler for readers</i>	
2. The abstract clearly presents objects, methods and results.	4

<i>(Please insert your comments) But few grammatical errors need to be checked. The authors should know that a Capital letter starts after a full stop. Aside that, is a good abstract. Key words should be arranged in Alphabetical order. Lastly the 'and' in keywords should be avoided.</i>	
3. There are few grammatical errors and spelling mistakes in this article.	
<i>(Please insert your comments) The work is orderly arranged, citations are quite current but I think the work needs an English Editor to proof read again to enhance the quality of the work and avoid certain avoidable grammatical errors.</i>	
4. The study methods are explained clearly.	
<i>(Please insert your comments) The methods in the abstract are not very much consistent with the methods in the main article. This is serious and needs to be checked.</i>	
5. The results are clear and do not contain errors.	
<i>(Please insert your comments) Good results with good and explicit quantitative analysis. Contracted form of writing should be avoided in an official article like this. It is not accepted.</i>	
6. The conclusions or summary are accurate and supported by the content.	
<i>(Please insert your comments)Very good conclusions deduced.</i>	
7. The references are comprehensive and appropriate.	
<i>(Please insert your comments)The references are comprehensive and appropriate but the APA format should be rightly followed.</i>	

Overall Recommendation (mark an X with your recommendation) :

Accepted, no revision needed	
Accepted, minor revision needed	YES
Return for major revision and resubmission	
Reject	

Comments and Suggestions to the Author(s):

I think with my experience in research and research methodologies, the topic is a good topic which will attract academic attention because of how popular the situation is in our dispensation, but I will suggest that to make the work more informing and sociological, a good sociological theory like the AGIL theory, social learning theory or any of the sociological developmental theories should be appropriately applied to the work to make it more informing and standard.
