ESJ Manuscript Evaluation Form 2022

This form is designed to summarize the manuscript peer review that you have completed and to ensure that you have considered all appropriate criteria in your review. Your review should provide a clear statement, to the authors and editors, of the modifications necessary before the paper can be published or the specific reasons for rejection.

Please respond within the appointed time so that we can give the authors timely responses and feedback.

NOTE: ESJ promotes peer review procedure based on scientific validity and technical quality of the paper (not perceived the impact). You are also not required to do proofreading of the paper. It could be recommended as part of the revision.

ESJ editorial office would like to express its special gratitude for your time and efforts. Our editorial team is a substantial reason that stands ESJ out from the crowd!

Comments and Suggestions to the Author(s):

All my comments and suggestions are in the text. If the author take account, it can contribute to improve the paper.

Comments and Suggestions to the Editors Only:

I think that his manuscript is good because it gives many solutions to determine the germination quality of the seeds of *Pterocarpus erinaceus* (plant species of high commercial value).
