ESJ Manuscript Evaluation Form 2022

This form is designed to summarize the manuscript peer review that you have completed and to ensure that you have considered all appropriate criteria in your review. Your review should provide a clear statement, to the authors and editors, of the modifications necessary before the paper can be published or the specific reasons for rejection.

Please respond within the appointed time so that we can give the authors timely responses and feedback.

NOTE: ESJ promotes peer review procedure based on scientific validity and technical quality of the paper (not perceived the impact). You are also not required to do proofreading of the paper. It could be recommended as part of the revision.

ESJ editorial office would like to express its special gratitude for your time and efforts. Our editorial team is a substantial reason that stands ESJ out from the crowd!

Date Manuscript Received:	Date Review Report Submitted: 2022/11/06

You approve, this review report is available in the “review history” of the paper: Yes/No	

Evaluation Criteria:

Please give each evaluation item a numeric rating on a 5-point scale, along with a thorough explanation for each point rating.

<i>Questions</i>	<i>Rating Result</i> [Poor] 1-5 [Excellent]
1. The title is clear and it is adequate to the content of the article.	4
<i>(Please insert your comments)</i> I think the title of this article reflects the content of the article and is logically constructed	

2. The abstract clearly presents objects, methods and results.	2
<i>(Please insert your comments)</i> The abstract of the article the issue and the results, but lacks specific parameters of the study, i.e. the object of the study, the purpose of the study and the methods of the study.	
3. There are few grammatical errors and spelling mistakes in this article.	4
<i>(Please insert your comments)</i> This article corrects grammatical and spelling errors but raises questions about certain expressions. Is it more correct to use ...texts about love... or love texts...	
4. The study methods are explained clearly.	5
<i>(Please insert your comments)</i> The methodological part of the paper clearly presents quantitative and qualitative research methods.	
5. The results are clear and do not contain errors.	4
<i>(Please insert your comments)</i> The results are presented too broadly. There were errors, but corrections have been made.	
6. The conclusions or summary are accurate and supported by the content.	1
<i>(Please insert your comments)</i> Conclusions are given, but could be more conceptual, but do not comment on figures and percentages. I would suggest making them more specific.	
7. The references are comprehensive and appropriate.	5
<i>(Please insert your comments)</i> References are applied and corrections made.	

Overall Recommendation (mark an X with your recommendation) :

Accepted, no revision needed	<input type="checkbox"/>
Accepted, minor revision needed	<input checked="" type="checkbox"/>
Return for major revision and resubmission	<input type="checkbox"/>
Reject	<input type="checkbox"/>

Comments and Suggestions to the Author(s):

The authors are advised to carefully complete the parameters required in the abstract and to conceptualise the conclusions.

Comments and Suggestions to the Editors Only:

Authors may have their article published after corrections and additions.
