The TITLE is clear and it is adequate to the content of the article.

The title broadly reflects the contents of the research paper.

The ABSTRACT clearly presents objects, methods, and results.

the abstract is rather a logical summary of the content of the article. This is the research article which clearly describes research questions and objectives of the study; recognition of limitations and emphasis of the implications of the study introduces relevant conclusions and introduces relevant literature.

There are a few grammatical errors and spelling mistakes in this article.

The article is written in correct and well understanding English.

The study METHODS are explained clearly.

The study very good and clear explain the the influence of occupational stress on quality family relationships among clergy in Christ Is The Answer Ministries, Kenya (CITAM). Quantitative data was analyzed using the linear regression technique in SPSS Version 28 and presented through tables, while the qualitative data was transcribed and analyzed using thematic analysis approach with identification of key themes. Also from the results we can see that clergy families have high quality family relationships.

The body of the paper is clear and does not contain errors.

The body of the paper is very clear and good.

The CONCLUSION or summary is accurate and supported by the content.

The conclusions are adequate to the content. They are clearly formulated.

The list of REFERENCES is comprehensive and appropriate.

The authors used a wide array of sources, both academic writings and reports elaborated by specialized international organizations. The references are accurate, they contain also the exact page which increases reliability and enables the reader to consult original sources.
