Comments and Suggestions to the Author(s):

La problématique traitée par l'auteur est un cas pratique. A cet effet, elle est originale et d'actualité. Les malades de diabète ont besoin de solutions concrètes en vue d'améliorer leur bien-être. Ainsi, nous suggérons à l'auteur de bien poser le problème de son étude qui nous paraît théorique, peu clair. En ce sens, nous l'avons déjà dit, la problématique est concrète, liée à des patients d'une structure connue c'est-à-dire le bien-être subjectif chez des diabétiques du CADA. Il faut donc dire clairement le problème auquel ceux-ci sont confrontés. En outre, l'auteur doit indiquer la portée de l'étude du point de vue théorique et pratique. Enfin, il y a des corrections grammaticales et d'orthographe à faire en vue d'améliorer le niveau de langue.
