ESJ Manuscript Evaluation Form 2024

This form is designed to summarize the manuscript peer review that you have completed and to ensure that you have considered all appropriate criteria in your review. Your review should provide a clear statement, to the authors and editors, of the modifications necessary before the paper can be published or the specific reasons for rejection.

Please respond within the appointed time so that we can give the authors timely responses and feedback.

NOTE: ESJ promotes peer review procedure based on scientific validity and technical quality of the paper (not perceived the impact). You are also not required to do proofreading of the paper. It could be recommended as part of the revision. The copyrights of the report are on the publisher and the data can be used for research purposes.

ESJ editorial office would like to express its special gratitude for your time and efforts. Our editorial team is a substantial reason that stands ESJ out from the crowd!

Reviewer Name: ISSA MAPOUKA Pierre Alfred	
University/Country: Université de Bangui/ République Centrafricaine	
Date Manuscript Received: 12.08.2024	Date Review Report Submitted:
Manuscript Title: Désarticulation de hanche secodaire à une gangrene du membre pelvien droit au Centre Hospitalier Universitaire la renaissance de Ndjaména	
ESJ Manuscript Number: 0815/24	
You agree your name is revealed to the author of the paper: yes	
You approve, your name as a reviewer of this paper, is available in the "review history" of the paper: yes	
You approve, this review report is available in the "review history" of the paper: yes	

Evaluation Criteria:

Please give each evaluation item a numeric rating on a 5-point scale, along with a thorough explanation for each point rating.

<i>Questions</i>	<i>Rating Result</i> [Poor] 1-5 [Excellent]
1. The title is clear and it is adequate to the content of the article.	4
<i>Le titre tel que libelé porte à croire qu'il s'agit d'une série de désarticulation de hanche alors qu'il s'agit que d'un seul cas clinique</i>	
2. The abstract presents objects, methods, and results.	4
<i>Le résumé concorde avec le travail.</i>	
3. There are a few grammatical errors and spelling mistakes in this article.	2
<i>Il y a beaucoup de fautes d'orthographe et de formulation</i>	
4. The study methods are explained clearly.	4

<i>L'observation a été clairement expliquée.</i>	
5. The results are clear and do not contain errors.	5
<i>Le commentaire est bien fait par rapport au résultat obtenu</i>	
6. The conclusions or summary are accurate and supported by the content.	3
<i>La conclusion a été partielle et ne concernait que les tradipraticient alors que l'accent doit être mis sur la sensibilization de la population.</i>	
7. The references are comprehensive and appropriate.	3
<i>Le nombre de références est acceptable pour un cas cliniques mais certaines références sont très anciennes; il faut les actualizer.</i>	

Overall Recommendation (mark an X with your recommendation) :

Accepted, no revision needed	<input type="checkbox"/>
Accepted, minor revision needed	<input checked="" type="checkbox"/>
Return for major revision and resubmission	<input type="checkbox"/>
Reject	<input type="checkbox"/>

Comments and Suggestions to the Author(s): Les auteurs doivent prendre en compte toutes les observations faites et corriger toutes les fautes.

Comments and Suggestions to the Author(s):

Travail d'actualité, intéressant
Titre incomplet : compléter par à propos d'un cas
Résumé : tenir compte des différentes étapes
Trop de fautes d'orthographe et de syntaxe
Beaucoup d'images non identifiées et non commentées
