Overall Recommendation!!!

Accepted, minor revision needed

Comments and Suggestions to the Author(s):

Please refer to author's guidelines for references for writing them.

Reviewer C:

Recommendation: Resubmit for Review

The TITLE is clear and it is adequate to the content of the article.

its better to add in Casablanka

The ABSTRACT clearly presents objects, methods, and results.

Well written-needs few linguistic corrections

There are a few grammatical errors and spelling mistakes in this article.

yes , to be revised

The study METHODS are explained clearly.

The sample size is small

The body of the paper is clear and does not contain errors.

clear

The CONCLUSION or summary is accurate and supported by the content.

Better to specify the complications

The list of REFERENCES is comprehensive and appropriate.

the references are;

1. old references

2. they are not written in a unified form

3, the References number 1,2,3 not contain the year of publications

4. more references should be added, specially the local nearby country and Arabian similar works

5. All references should be written in a proper systematic way

1

Overall Recommendation!!!

Return for major revision and resubmission

Comments and Suggestions to the Author(s):

congratulation for the works , the article need revision

you did not mention anything about the neoadjuvant chemotherapy and their detail

the mean should be completed with \pm SD (standard deviation)...

howmuch was the smallest age of the patient , mention more detail

Family Hx, Hx of IBD???
