The TITLE is clear and it is adequate to the content of the article.

The TITLE is adequate to the content of the article. My overall assessment of the article is positive.

The ABSTRACT clearly presents objects, methods, and results.

The ABSTRACT presents objects, methods, and results

There are a few grammatical errors and spelling mistakes in this article.

Is structurally sound, does not betray the principles of academic writing

The study METHODS are explained clearly.

The study METHODS are explained clearly.

The body of the paper is clear and does not contain errors.

Does not contain errors

The CONCLUSION or summary is accurate and supported by the content.

The research carried out leads to real results:

- Effective partnerships between government and people interested in the problem of water pollution quality will contribute to the optimal use of water resources.
- No less important factor is the greening of the banks of irrigation canals to reduce water evaporation.

Sharing the research results and findings proposed by the authors of the study will significantly alleviate the adverse effects of surface water pollution with nitrogen, phosphorus, potassium, or other chemicals, the article uses a variety of materials and literature.

The list of REFERENCES is comprehensive and appropriate.
