ESJ Manuscript Evaluation Form 2026

This form is designed to summarize the manuscript peer review that you have completed and to ensure that you have considered all appropriate criteria in your review. Your review should provide a clear statement, to the authors and editors, of the modifications necessary before the paper can be published or the specific reasons for rejection.

Please respond within the appointed time so that we can give the authors timely responses and feedback.

NOTE: ESJ promotes peer review procedure based on scientific validity and technical quality of the paper (not perceived the impact). You are also not required to do proofreading of the paper. It could be recommended as part of the revision.

The copyrights of the report are on the publisher and the data can be used for research purposes.

ESJ editorial office would like to express its special gratitude for your time and efforts. Our editorial team is a substantial reason that stands ESJ out from the crowd!

Reviewer Name: N'Goran David Vincent KOUAKOU	
University, Country: Institut National Polytechnique Félix Houphouët-Boigny (INP-HB), Côte d'Ivoire	
Date Manuscript Received: 27/03/2026	Date Review Report Submitted: 02/04/2026
Manuscript Title: Activité antiparasitaire sur <i>Toxoplasma gondii</i> et étude toxicologique de l'extrait éthanolique de <i>Macaranga hurifolia</i> Beille (Euphorbiaceae)	
ESJ Manuscript Number: 0414/26	
You agree your name is revealed to the author of the paper: YES	
You approve, your name as a reviewer of this paper, is available in the "review history" of the paper: YES	
You approve, this review report is available in the "review history" of the paper: YES	

Evaluation Criteria:

Please give each evaluation item a numeric rating on a 5-point scale, along with a thorough explanation for each point rating.

Questions	Rating Result [Poor] 1-5 [Excellent]
1. The title is clear and it is adequate to the content of the article.	4
2. The abstract presents objectives, methods, and results.	2.5
<i>(The keywords are not)</i>	
3. There are a few grammatical errors and spelling mistakes in this article.	2.5
<i>Yes, this article contains some grammatical and spelling errors. Some of them have been indicated in the text.</i>	
4. The study methods are explained clearly.	2.5

<i>The methodology suffers from a lack of presentation of biological material and statistics in the results.</i>	
5. The results are clear and do not contain errors.	3
<i>The results are sometimes poorly presented, particularly the section on the cellular toxicity of <i>Macaranga hurifolia</i>.</i>	
6. The conclusions or summary are accurate and supported by the content.	1
<i>In my opinion, the discussion is incomplete and doesn't adequately explain the results. The first part would be better suited to the manuscript's introduction. Beyond that, only one author will remain in the discussion.</i>	
7. The references are comprehensive and appropriate.	3
<i>This work lacks sufficient scientific references.</i>	

Overall Recommendation (mark an X with your recommendation) :

Accepted, no revision needed	<input type="checkbox"/>
Accepted, minor revision needed	<input type="checkbox"/>
Return for major revision and resubmission	<input type="checkbox"/>
Reject	<input type="checkbox"/>

Comments and Suggestions to the Author(s):

I suggest the authors thoroughly review the introduction, clarify certain details of the methodology, and revise the presentation of the results and the discussion.
