ESJ Manuscript Evaluation Form 2026

This form is designed to summarize the manuscript peer review that you have completed and to ensure that you have considered all appropriate criteria in your review. Your review should provide a clear statement, to the authors and editors, of the modifications necessary before the paper can be published or the specific reasons for rejection.

Please respond within the appointed time so that we can give the authors timely responses and feedback.

NOTE: ESJ promotes peer review procedure based on scientific validity and technical quality of the paper (not perceived the impact). You are also not required to do proofreading of the paper. It could be recommended as part of the revision.

The copyrights of the report are on the publisher and the data can be used for research purposes.

ESJ editorial office would like to express its special gratitude for your time and efforts. Our editorial team is a substantial reason that stands ESJ out from the crowd!

Reviewer Name: OUATTARA Katinan Etienne	
University, Country: University Nangui Abrogoua, Ivory Coast	
Date Manuscript Received: March 30, 2026	Date Review Report Submitted: April 03, 2026
Manuscript Title: Etudes ethnomédicinales, phytochimiques et activité antiradicalaire de Euphorbia hirta L. utilisée à visée galactogène dans la médecine traditionnelle chez les Sara-Kaba de Hélibongo et Kemata, dans la Province du Moyen Chari (Tchad)

You approve, your name as a reviewer of this paper, is available in the “review history” of the paper: You approve, this review report is available in the “review history” of the paper: Yes	

Evaluation Criteria:

Please give each evaluation item a numeric rating on a 5-point scale, along with a thorough explanation for each point rating.

Questions	Rating Result [Poor] 1-5 [Excellent]
-----------	---

1. The title is clear and it is adequate to the content of the article.	5
<i>The title is clear, concise, and understandable</i>	
2. The abstract presents objectives, methods, and results.	4
<i>The summary is well-structured and includes the objectives, methodology, and results. However, it contains several spelling errors. The author should proofread the summary and address all the comments</i>	
3. There are a few grammatical errors and spelling mistakes in this article.	3
<i>Yes, this article contains quite a few grammatical and spelling errors</i>	
4. The study methods are explained clearly.	3
<i>Yes, but it contains some sentences that are too long and difficult to understand. The author needs to rephrase some sentences to make it easier to understand.</i>	
5. The results are clear and do not contain errors.	3
<i>The results are clear and error-free. However, some overly long sentences make them difficult to understand.</i>	
6. The conclusions or summary are accurate and supported by the content.	3
<i>Yes, some poorly worded sentences make comprehension difficult</i>	
7. The references are comprehensive and appropriate.	4
<i>Yes</i>	

Overall Recommendation (mark an X with your recommendation) :

Accepted, no revision needed	
Accepted, minor revision needed	X
